

CALL FOR PAPERS

JOURNAL OF MARINE ENGINEERING AND MANAGEMENT

Commencing in 1949, at the outset of India's independence, the Institute was founded to meet the expanding demand for marine engineers in the country. Marine Engineering and Research Institute (currently referred to as Indian Maritime University- Kolkata Campus) has garnered international acclaim as the preeminent marine institute .

The Journal of Marine Engineering and Management, published bi-annually by the Indian Maritime University - Kolkata Campus (formerly DMET, Kolkata, and IIPM, Kolkata), is a peer-reviewed publication dedicated to disseminating research articles across various domains such as marine engineering, marine technology, maritime management, transport management, and logistics management, etc. The journal aims to share insights and perspectives from faculty members, students, and practitioners on topics related to marine engineering, maritime business systems, logistics management, and organizational performance. Emphasizing original and innovative research, the journal focuses on emerging areas within marine engineering and management and their implications for business, economy, and society. Serving as a platform for the exchange of ideas and techniques among students, faculty members, professionals, and practitioners, the journal is designed to be beneficial for academicians, corporate executives, professionals, and researchers alike.

SCOPE

Research papers on the following areas may be submitted for consideration for publication in the JMEM.

- Marine Engineering
- Oceanology
- Electrical Engineering
- Off score Engineering
- Electronics Engineering
- Maritime Management
- Computer Science
- Logistics Management
- Marine Science
- Transport Management

Online submission <https://forms.gle/UX9qEeeTPmucRnsVA>
