

Paper Submission Guidelines

1. Submission to this journal is to be made through email.
2. The recommended length of a paper is around 5,000 words (excluding all notes, references, tables and appendices).
3. Before making the online submission of the manuscript, the author/s should ensure the following with respect to the manuscript:
 - Abstract of not more than 150 words.
 - 4-5 keywords.
 - Details of all authors (such as name, affiliation, address, email and telephone no.)
 - The manuscript has been checked for spelling and grammar.
 - All references that have been cited in the manuscript are mentioned in the 'Reference list' of the manuscript.
 - Permission has been obtained for the use of copyrighted material from other sources.

4. The author/s can follow the paper template attached herewith.

5. **Plagiarism check:** The authors are informed that all submitted manuscripts go through a similarity check, and if the similarity score is 10% or more (including authors' own publications), the manuscript will not be considered for the peer-review process. This check is done as soon as the manuscript is received, and hence, the authors must ensure that the similarity index is less than 10% for their submitted manuscript.

6. **Ethics policy:** Contributors to the Journal are advised to be careful not to violate any of the provisions of the Copyright Act and the Rules made thereof as regards the material used in the papers or their sources. JPI will not be responsible for any violations or lapses on the part of the contributors in this regard. For more information, please refer to our detailed Ethics policy.

7. **Copyright and licensing:** On acceptance of a paper, the author will be required to electronically submit a 'Copyright Form', which is an exclusive license agreement that grants IMU-KC the sole and exclusive right and license to publish the article.

The 'Copyright Form' would also require the author/s to warrant the following:

- The manuscript is solely submitted to this journal and is not currently under submission to, or consideration by, any other journal or publication.
- The manuscript has not been published before in its current or substantially similar form.
- The article is the original work of the author/s and does not infringe the intellectual property rights of any other person or entity and cannot be considered as plagiarising any other published work.
- The author/s have obtained the necessary written permission from the appropriate copyright owner or authorities for the reproduction in the article and in the journal of any text, illustration or other material.
- The authors have declared any potential conflict of interest in the research.
- Any support from a third party has been noted in the Acknowledgements.
- Sources of funding, if any, have been acknowledged.
- The author/s have not previously assigned or licensed the article to any third party.
- The article contains no statement that is abusive, defamatory, fraudulent, or in any other way unlawful or in violation of applicable laws.
- Anyone who has made a significant contribution to this article has been listed as an author. Minor contributors have been noted in the Acknowledgements section.
- The authors will not permit others to electronically gather and save their articles to a separate server.
- The authors acknowledge that the publisher would publish the article in the above-specified journal and that it reserves the right to make such editorial changes as may be required to make the article suitable for publication.

8. **Peer-review Policy:** All papers submitted to the journal will be subject to the IMU-KC review system.

9. The Editorial Team reserves the right to make suitable editorial changes in the papers submitted and accepted for publication.

11. For any further queries, the author/s can send an email at
